

Aim: MapReduce Code for Mapper

1) touch sw.txt

Output:

```
[cloudera@quickstart ~]$ touch sw.txt
```

2) cat >> sw.txt

Output:

```
[cloudera@quickstart ~]$ cat >> sw.txt
Welcome to the cloudera
^Z
```

3) vi mapper.py

Output:

```
import sys
stop_words = set(["the", "is", "and", "to", "of", "a", "in"])
for line in sys.stdin:
    line = line.strip()
    words = line.split()
    for word in words:
        if word.lower() not in stop_words:
            print('%s\t%s'%(word,1))
```

4) cat sw.txt | python mapper.py

Output:

```
[cloudera@quickstart ~]$ cat sw.txt | python mapper.py
Welcome 1
cloudera      1
```
